

K.A.R. 9-3-10. Brucellosis. (a) ~~Each sexually intact adult domesticated cervid, except whitetail deer, mule deer, and any other species designated by the commissioner as nonsusceptible to brucellosis, that is changing ownership within Kansas and is not intended for immediate slaughter shall originate and move directly from a herd certified by APHIS to be brucellosis-free or shall be required to test negative for brucellosis by an approved test conducted at an approved laboratory within 30 days before the change of ownership. The designation of nonsusceptibility shall be based on written confirmation from APHIS veterinary services that the species is not considered susceptible to brucellosis. Any adult domesticated cervid known or suspected to have been exposed to brucellosis may be quarantined for a test or retest for brucellosis by order of the commissioner.~~

(b) The owner of any domesticated cervid herd infected with brucellosis shall take either of the following steps:

(1) Quarantine and depopulate the herd; or

(2) quarantine the herd until a herd plan to eradicate brucellosis from the infected herd has been completed. (Authorized by K.S.A. 2013 2016 Supp. 47-610; implementing K.S.A. 2013 2016 Supp. 47-610 and K.S.A. 47-614; effective Sept. 19, 2014; amended P-_____.)
